GRAND OPERA TO-DAY

The Gover or's Son.

'The Governor's Son' is a drawing card at the Bijou Theatre this week, the popular airs of the chorus being hummed on all sides. The maince yesterday afternoon was largely attended, the audience being in a laugh nearly all the time. The players were acquainted with the house, voices were regulated to rach all pairs of the house, and the scenery was quickly handled. The several thorus songs were repeatedly encored. The audience at night was larger than on the opening ingit, the players in high spirits, and the music bright and sparking. The whole production is one full of life and notion, a happy blending of color, with a most bewitching chorus. The dances and drills are novel and new.

The Governor's Son will remain for the week, performances each evening at \$.30, with Mailnees on Thursday and Saturday.

with Matlnees on Thursday and Saturday.

In scenic splender, "The Child Flaves of New York," the sensational melociarmatic success by Charles E. Blaney and Howard Hall, which will be the attraction at the Bjou Theatre for an engagement of one week, beginning Monday, is said to surpass anything ever presented at this house, it being necessary to use no less than ten elaborate scenes and an extraordinary amount of paraphernalla, requiring the services of the regular theatre force of stage mechanics and ten additional men to properly give the performance. "The Child Slaves of New York" is written around the episodes of child labor and crime in the great metropolis, the story of which portrays a simple truth and shows the great public that the present agitation against child labor is prompted by facts. It is a theme of great dramatic strength, and its treatment is masterly. The play will be presented by a cast of well-known players.

During the past few weeks contracts have been awarded for eight new three-story brick dwellings on Grace Street, near the monument. On Monument Avenue, three handsome homes have just been contracted for west of Meadow Street, it is conservatively estimated that in other localites in Lee District, there are now actually under construction and contracted for about forty handsome homes, costing altogether \$500,000. One of the very remarkable features for the infloring that has been done in that dis rick within the past few years is the actual few houses are offered for ront and in nearly every case the occupants own their own homes.

Your Thinker a Thought?

Your Thinker a Thought?
Funny things happen in this world, and now and then some of them make one an interested observer, for instance; several years ago a man pursued a systematic course of investigation to discover what kind of elements the body would take up from the vegetable kingdom out of which to make gray matter in the brain and nerve centres, throughout the body; also how to propare this food so that it would be easily digested and allow Nature to make use of these elements. So far the proposition was all right. Question—How to bring all this about?

It took over two years' work to solve the problem successfully. After it was solved the food was given to many people, and the result watched carefully. When all results were proven beyond doubt the food was put on the market under the name of Grape-Nuts. Then followed public announcement in the newspapers and magazines that such a food was in existence and that it would perform its intended work.

People all over the world realized the need of such a food and began purchasing it liberally. It attracted so much attention that a long list of imitators sprung up all over the country. They boiled wheat, roasted it, stewed it, chopped it, mixed it with rye, mait, oats, and perhaps hay—we are not sure-

THE RIGHT TO TAX NATIONAL BANKS

Case Before the Supreme Court to Decide This Important Matter.

Lynchburg, appellant, vs. the Auditor

is a test one, involving the validity of the State statute imposing a tax on the stock of national banks.

The bank secured an injunction from the circuit judge on July 22d, 1886, preventing the State of Virginia from collecting any taxes whatever from the steckholders of the People's National Bank for more than seven years. Indeed, no taxes have been paid on any of the shares of stock of said bank since 1891.

In the first trial of the case the Commonwealth won, whereupon the bank appealed the case to the highest court in the land. Some good lawyers are of opinion, after reading the Attorney-General's brief, that the higher court will affirm the judgment of the lower court, and thus save to the State its micrested in the outcome of the case.

Messrs. Horsley and Blackford and ethers, of the Lynchburg bar, represent the appellants in this cause.
